LOCAL MATTERS.

The Weather Probabilities, Oct. 4, 1881.—The Middle Atlantic States fair weather, westerly winds, stationary or lower barometer and temperature.

ALEXANDRIA'S SUCCESS IN BREWING.—As an evidence of the prosperity of one of Alexandria's institutions it is but necessary to state that the shipping clerks and hands at Robert Porter's Brewery were a few days ago brought to a standstill because there could not be found on the premises a barrel in which to ship the beer, although at that time there were pressing orders for several car loads. To temporarily relieve this demand it was found necessary to order several hundred barrels from New York. Such is the growing popularity of Mr. Porter's beer that he finds his present facilities inadequate to fill his orders. This, however, he proposes to speedily obviate by increasing his facilities for production. The greatest difficulty found in the way at present is a supply of water. To overcome this obstacle he has already sunk four large pipes, so as to form what might be termed an artesian well. To this is to be attached a large steam pump, which, it is thought, will supply sufficient water to enable him to increase the capacity of his brewery to any desired amount. Mr. Porter is at present in Europe and doubtless will be gratified to learn of the successful manner in which his business is conducted by his enterprising agent, Mr. Charles Strangman. The quality of the beer manufactured at this establishment is said to be excellent, which is fully acknowledged by the growing demand. A few years ago numbers would have laughed at the idea of such an enterprise being made successful in Alexandria. With a level head, some capital and plenty of good-head stoutness there would be opportunities here for more equally successful enterprises.

CIRCUS MAN'S HORRIBLE DEATH.—On Sunday morning last the body of a man was found floating in the Rappahannock river, near Rappahannock Station. The body was badly mangled, one ear was entirely cut off, the neck was broken and the body mangled. In the pockets of the clothing of the dead man were found a card containing a card on which was written, "Louis F. Conrad, No. 10 Clement Street, Baltimore." [supposed to be the name and residence of the deceased.] It was a number of Sunday school tickets. A coroner's jury viewed the body and rendered a verdict that the deceased came to his death by being knocked from the top of a car, upon which he was riding, by coming in contact with an overhead bridge. He was a member of Camp's Circus Company. The remains were interred near the railroad track yesterday. In the year 1880 there was a stationary engine to this city which performed in an extraordinary manner on the lot now occupied by Supt. Hall, on King street. Among the performers who appeared there at various times were the "Clown Brothers," clowns and acrobats, and doubtless the unfortunate man was one of the brothers.

VIRGINIA NELSON'S VICTIMS DIED.—Virginia Nelson, colored, was charged in the Police Court, to-day, by a colored woman named Butler, with keeping a vicious dog. The evidence was that Virginia's dog, a large brown animal, this morning, ran out of the house, caught the complainant's daughter, Marion Butler, by the dress, threw her down, and severely bit her on the shoulder, arm and leg. Virginia said the dog did not bite the girl, but that she had been bitten in the arm. All she, the Nelson woman, ever did for a dog like this was to apply the hair of the animal to the wound and it soon got well. The Mayor, not adopting the theory that the hair of the dog was good for the bite, ordered the dog to be shot, which sentence was promptly executed. The woman was then discharged with a warning not to kick up a row at the funeral of the dead dog.

SUIT AGAINST THE ISLAND AND SEABOARD COASTING CO.—Arvine W. Johnson yesterday entered suit in Washington, against the Island and Seaboard Coasting Company, claiming \$1,000 damages. The declaration sets forth that on the 1st of August last he purchased a ticket of the company to Norfolk, and returned for \$3 and took passage on the steamer Lady of the Lake. He was carried to Norfolk and on returning, when the steamer reached Fortress Monroe the next day he attempted to land, but was arrested by the officers of the boat and detained until he paid an additional fifty cents, which he did, to secure his release. This action took place in the presence of a number of the complainant's friends, and he was injured and enraged in his feelings and damaged to the extent of the amount claimed.

CHANCE OF OFFICES IN THE CUSTOM HOUSE BUILDING.—Judge Gray, the Collector of the Port, has issued an order from the Department in Washington granting him the use, in addition to the two rooms he now has, of the large room now occupied by Capt. E. B. Bette, in the Custom House building, as an interior revenue office. In consequence of this change Capt. Bette will remove to the room now occupied by Deputy Clerk of the U. S. Courts John S. Fowler, and Mr. Fowler will remove to the grand jury room in the third story of the building. It is understood that the extra room will be fitted up in fine style for the special benefit of the Collector.

THE IRON WORKS.—The experiment of making iron by the new process was continued at the establishment of the Potomac Manufacturing Company, in this city, to-day, with very satisfactory results. Yesterday 2,000 pounds of iron was turned out, complete, in twenty-one minutes. Already a number of skilled mechanics are engaged at the works, principal among them being Capt. Wm. H. Brooks, of Pennsylvania, superintendent; J. T. Roberts, of Washington, head blacksmith, and at present hammerman; P. Coxon, of Washington, hatterman; J. Reed and Charles Howard, of this city, carpenters.

ADMITTED TO THE BAR.—Mr. James H. Clements, who, at the last commencement of the University of Georgetown, received the degree of Bachelor of Laws, and subsequently appeared before Judges Keith and Daniel A. Grimley, of the Circuit Courts, and, giving satisfactory evidence of his knowledge of the law and proficiency therein, was granted the required license as attorney at law in this State, was, yesterday morning, by order of his honor, Judge James Sanster, admitted to practice in the courts of Alexandria county. Mr. Clements is a talented gentleman, and will, no doubt, prove a success in the learned profession.

FATALITY IN THE GAZETTE.—As stated in a dispatch to the Gazette yesterday, a young man named Willie Maddox, was killed at Orange Court House by the cars. The young man was riding on top of a freight car, which was going the rules of the company, and while the cars were being switched to a side track, he attempted to jump from one car to another, when he fell through to the track below, and was run over. He was horribly mangled, dying instantaneously shortly after the accident.

THE COONEY WILL CASE.—After the Gazette went to press yesterday evening, the jury in the case of Morrow against Cooney, having decided the validity of the will of the late John Cooney, on behalf of two days in the Circuit Court for the city, Judge James Keith presided, after hearing the arguments of counsel on both sides, rendered a verdict sustaining the will of the said John Cooney, deceased. The court then adjourned till the 22d of November, at which time a special term will be held.

MRS. CHANFRAU.—Mrs. Henrietta Chanfrau, supported by C. W. Taylor's company, made her first appearance in Alexandria last night, and achieved at once a very thorough success by her brilliant performance of Lady Isabel, in the New Kent scene. The effort was one of consummate artistic excellence, abounding in strokes of intense passion and touches of exquisite delicacy. In fact this delicate observation of the modesty of nature and the noble eloquence of truth is the prevailing quality of Mrs. Chanfrau's beautiful impersonation. It is impossible not to note her studious avoidance of anything bordering upon dramatic extravagance, even when by so doing she might win a melodramatic effect and exert considerable influence upon the audience. At several points of the play Mrs. Chanfrau's dramatic intuition, directed by this evident culture and by her womanly feeling reached the highest triumph of art, and in the touched emotions and streaming eyes of her auditors won the richest applause. Her gradual and admirable development of the jealousy which about her being in her interview with Carlyle in the 2d act, her acting in the famous remorse scene of act 3d and her death scene with the child in act 4th are notable instances of this passionate power and artistic skill. She was followed throughout the performance by the unreserved admiration of the audience and applause at every point of it. This supporting company is one of more than usual ability. They labored somewhat under the disadvantage of being new for the first time brought together for a performance, yet their efforts evinced no lack of either ability or discipline. Neither space nor time will permit us to particularize, but in a general way it is but fair to praise to say that Messrs. O. H. Barr, S. N. Carter, Louis Atkins, Frank Moulton, P. W. and H. Barker commanded much critical applause. Among the ladies Miss Regina Dora, Miss Victoria Cameron and Miss Ernestine Floyd were especially worthy of the interest they excited both by their excellent acting and admirable dressing. Little Daisy Dean, as the child, was admirable. To-night the famous comedy, "The Rivals," supported by the same company will present its celebrated play, "The Rivals," the best known and perhaps most popular of American drama familiar to the stage.

DAISY DEAN.—Daisy Dean, the "Child actress" of the Chanfrau troupe though but fifteen years old, is an experienced little traveler, and uncommonly precocious in brightness and intelligence. She was recently connected with one of the New York companies, and on route to New York, it was determined that as her services would not be needed beyond Omaha, she should be sent back to her mother from that point. Accordingly she was furnished with a ticket for her traveling expenses and entrusted to the care of the conductor of the train. The train had not been long on its way before Daisy espied a gentleman whom she supposed to be the conductor, propounded certain questions to him. Upon discovering, however, that he was a newspaper correspondent, she talked with him and, regarding the journey as his father, the late Richard S. Dean, of Norfolk, Va., was editor of the company K of the famous 12th Virginia regiment, and was a friend of approved course. At Clampton Gap, Md., he and Daisy, with W. Taylor, of the same regiment, held a bay in the presence of the South Mountain company of the Pennsylvania Volunteers. Little Daisy's performance of William's wife, Chanfrau's New East Lynne, is a performance of notable excellence. She is said to be a well-to-do lady, regularly remitted to her mother, who now resides in New York.

IN TROUBLE AGAIN.—Hugh Strider was arrested this morning, charged with breaking into the house of his brother-in-law, Wm. Davis, yesterday evening, and robbing it of a quantity of clothing, two clocks, and a number of other articles. The accused had a hearing before Judge Gray, and was sent on to the grand jury of the Corporation Court, which meets to-morrow. This is the third time Strider has been in trouble within the past few months.

CANAL STATISTICS.—During September 273 canal boats, carrying 27,401 tons of coal, cleared from Cumberland. This was a decrease of over 30,000 tons as compared with the previous month. The revenue for September was over \$15,000.

RECEIPTS.

CELERY AND ITS USES

ARE NOW MATTERS OF GENERAL INTEREST.

And are attracting much attention, both from Scientific and Medical men.

The Following Article Will be Read with Great Interest, Especially by Sufferers from Headache, Neuralgia, Nervousness, Indigestion, etc.

Celery has only come into public notice within the last few years, but scientific experiments and experience have proved beyond a doubt that it controls Nervous Irritation and Periodic Nervous and Sick Headaches to a marked degree.

But a combination of the EXTRACT OF CELERY AND CHAMOMILE, which has been recently introduced to the profession and the public by myself, has produced such marvelous results in curing nervousness and sick headaches, neuralgia, indigestion and sleeplessness, that it has excited public attention and newspaper comments, and, therefore, I give the following information to the public to avoid answering hundreds of letters of inquiry about them.

My Celery and Chamomile Pills for the cure of headaches and nervousness, are prepared under my supervision, and are intended expressly to cure headache, neuralgia, indigestion, sleeplessness and nervousness, and will cure any case where organic disease of the brain or spinal cord exists. Hundreds of cases of long standing have been cured. No matter how chronic or obstinate the case may be, a permanent cure is morally certain. This statement is made after years of experience in their use in the general practice of medicine.

These pills are also valuable for school children who suffer from nervous headaches, caused by an overworked brain in their studies, and for all classes of hard brain-workers, whose overtaxed nervous centres need repair and sedation. Nervous tremor, weakness and paralysis are being daily cured by these pills. They correct constipation, but are not purgative.
